The screenshot displays the D2L Brightspace interface for a course titled "Plagiat Course 1". The top navigation bar includes the D2L logo, course name, and user profile "Plagiat Instructor1". Below the navbar, a row of icons for "Content", "Course Tools", "Assessments", and "StrikePlagiarism" is shown, with the "StrikePlagiarism" icon circled in red. The main content area is titled "Course 1/1 - Submissions" and features buttons for "Edit Assignment", "Add Feedback Files", and "Submission Log". A search bar and "Show Search Options" link are present. Below the search bar, there are action buttons: "Download", "Mark as Read", "Mark as Unread", and "Delete". A table of submissions is visible, with one entry for "test EN.docx (19.64 KB)" submitted on "Jan 13, 2023 8:28 AM". A dropdown menu is open, showing a search bar and a list of course options: "All assignments", "Course 2", "Course 3", "Course 4", "course 5", "Course 6", and "Course 1/1".

This is a list of Submissions. By clicking on Search you can search an author or a document title, by clicking on a field next to it you can choose a course you are interested in.

The screenshot shows a web interface for viewing submission details. At the top, there is a search bar with a 'Search' button and a dropdown menu currently set to 'Course 1/1'. Below this is a table with columns for Author / Title, Assignment Name, Uploaded at, Viewed, SC1, Status, and Report. The table contains six rows of submission data. Annotations with blue boxes and arrows point to specific features: 'Document title' points to the search bar; 'Choose course' points to the dropdown menu; 'Search for an author or a document title' points to the search input field; 'Student has already viewed report' points to the 'Viewed' column icon; 'Similarity Coefficient and its score' points to the 'SC1' column; 'Click on this icon to open report' points to the report icon in the 'Report' column; 'Student did not open report' points to the crossed-out icon in the 'Viewed' column; and 'Status of document verification by the system. Document is checked or being checked.' points to the 'Status' column icons.

### List of possible text manipulation attempts

In this section, you can find information regarding text modifications that may aim at temper with the analysis results. Invisible to the person evaluating the content of the document on a printout or in a file, they influence the phrases compared during text analysis (by causing intended misspellings) to conceal borrowings as well as to falsify values in the Similarity Report. It should be assessed whether the modifications are intentional or not.

Please note that high coefficient values do not automatically mean plagiarism. The report must be analyzed by an authorized person.

Within academia, plagiarism by students, professors, or researchers is considered academic dishonesty or academic fraud, and offenders are subject to academic censure, up to and including expulsion. Some institutions use plagiarism detection software to uncover potential plagiarism and to deter students from plagiarizing. Some universities address the issue of academic integrity by providing students with thorough orientations, required writing courses, and clearly articulated honor codes. Indeed, there is a virtually uniform understanding among college students that plagiarism is wrong. "Nevertheless, each year students are brought to their institutions' disciplinary boards on charges that they have misused sources and try to cheat in their schoolwork." [23]

However, the practice of plagiarizing by use of sufficient word substitutions to exclude detection software, known as rogeting, has rapidly evolved as students and unethical academics seek to stay ahead of detection software. [24]

Despite phenomenon of plagiarism is very sensitive in academic society, no much done to move forward with academic integrity in many countries. reasons are various: lack of legislation and regulations, poor practice implemented etc. Within last few years the plagiarism scandals beca
