The copyright holder is typically the work's creator, or a publisher or other business to whom exclusive rights are a form of monopoly. Exclusive rights can be established by law or by contractual obligation, but the scope of enforceability will depend upon the extent to which others are bound by the instrument establishing the exclusive right; thus in the case of contractual rights, only persons that are parties to a contract will be affected by the establishment of such rights. Some public utilities, or, in some cases, governments, may be granted in law certain exclusive rights. Some scholars argue that rights to property are not exclusive.
