Using StrikePlagiarism with Brightspace

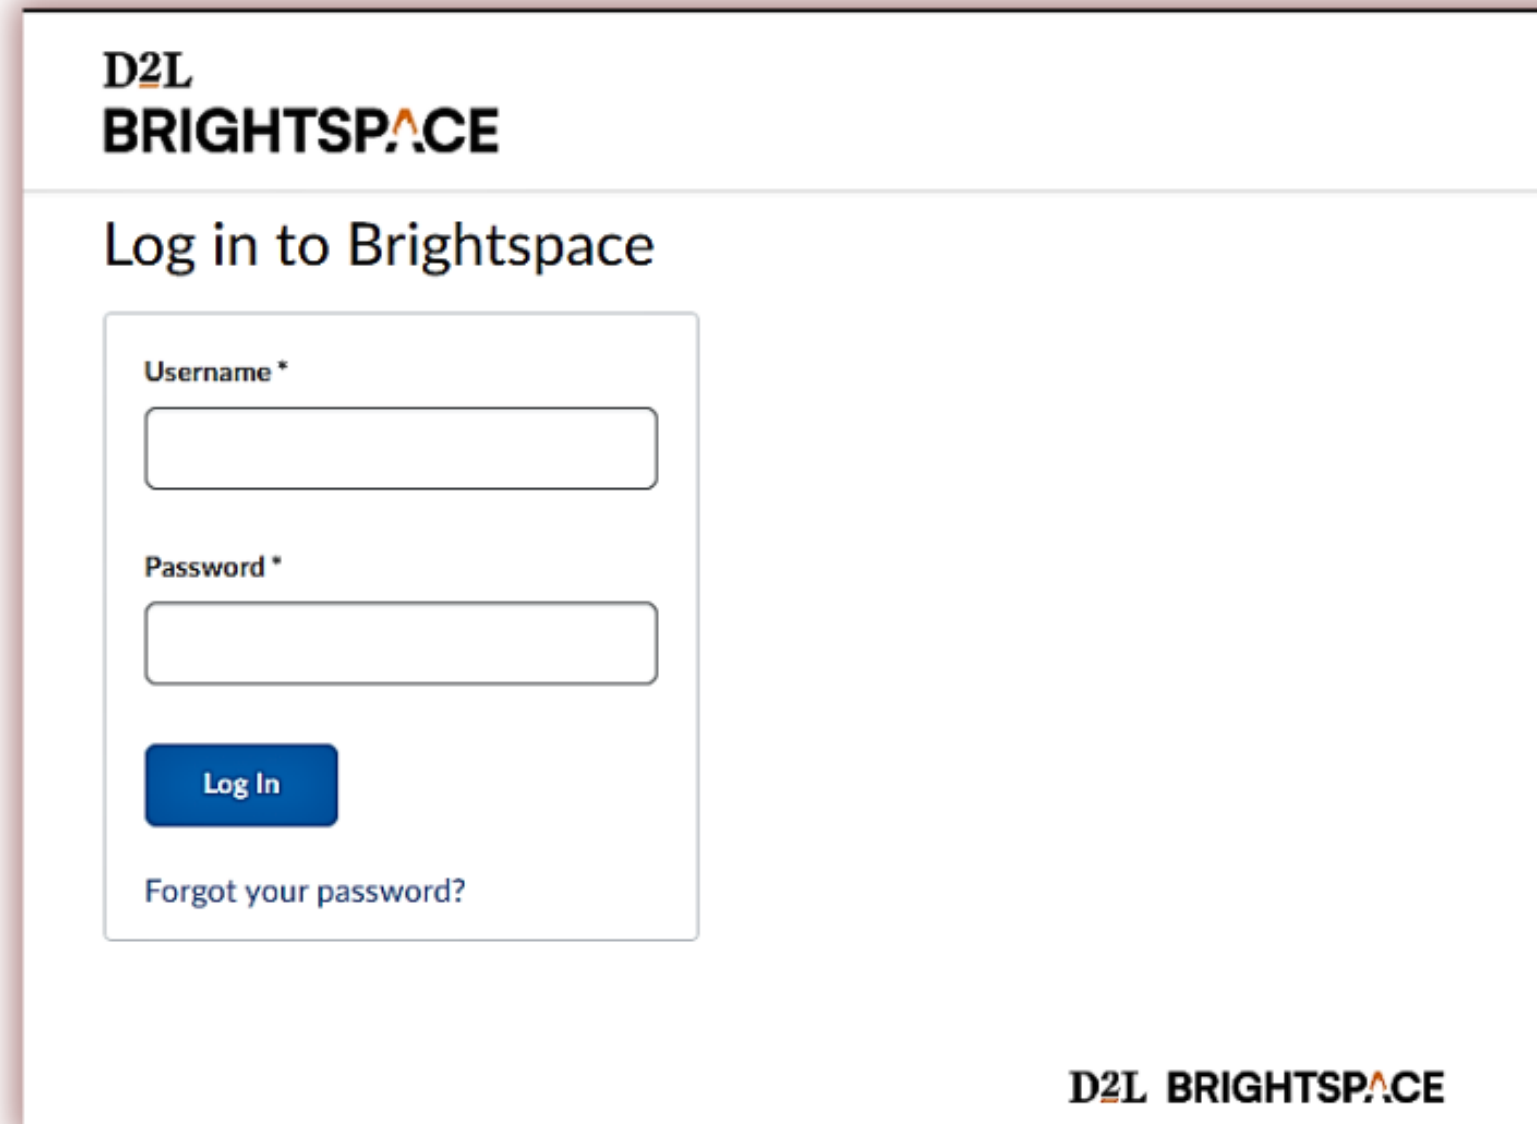

Step 1. Create LTI-tool

Go to the "Admin Tools" and select "Manage Extensibility"

The screenshot shows the Brightspace user interface for 'Jessa's Learning Zone'. At the top, there are navigation icons for announcements, calendar, quick eval, discover, and data access. A large banner reads 'Welcome to Brightspace!'. Below the banner is a Google search bar. On the right side, a dropdown menu is open, displaying a list of administrative tools. The menu items are organized into several categories: External Links, System Log, Administration, Final Grade Audit Log, Video Note Captions, OpenID Connect, Form Elements, Password Policy, Free-Range App Manager, Course Related, Roles and Permissions, Global Announcements, Attendance Schemes, SAML Administration, Google Apps Administration, Class Progress and User Progress, Trusted Sites, Homepage Management, Classlist Tab Management, Product/Tool Administration, Import/Export/Copy Components, Competencies, Bulk Tool Configuration, IMS Configuration, Course Content Feedback, View Product Versions, Language Management, Course Management, D2L Administration, Learning Group Management, Rubrics, Activation Diagnostics, Learning Groups, View Copy Course History, Custom Login Logic Configuration, Learning Outcomes, ePortfolio, Health Checks, Locale Management, Forms, Logging Configuration, Login Page Management, Sharing Groups, and Mail Template Management, and Plugin Management.

Log in to your account as an admin.

The image shows a screenshot of the D2L Brightspace login interface. At the top left, the logo "D2L BRIGHTSPACE" is displayed. Below the logo, the heading "Log in to Brightspace" is centered. The login form is enclosed in a light gray border and contains the following elements: a "Username *" label above a text input field, a "Password *" label above a text input field, a blue "Log In" button, and a "Forgot your password?" link. The D2L Brightspace logo is also present in the bottom right corner of the page.
