This is a list of Submissions. By clicking on Search you can search an author or a document title, by clicking on a field next to it you can choose a course you are interested in.

The screenshot shows a submission list interface with the following components and annotations:

- Search and Filter:** A search bar with a magnifying glass icon and a dropdown menu for course selection (currently showing "Course 1/1").
- Table Headers:** Author / Title, Assignment Name, Uploaded at, Viewed, SC1, Status, Report.
- Table Rows:** Six rows of submission data, each with a document title, course, upload time, viewed status, similarity coefficient (SC1), status, and a report link.
- Annotations:** Blue boxes with arrows pointing to specific elements: "Document title" (points to the search bar), "Choose course" (points to the dropdown), "Search for an author or a document title" (points to the search bar), "Student has already viewed report" (points to the eye icon in the Viewed column), "Similarity Coefficient and its score" (points to the SC1 column), "Click on this icon to open report" (points to the report link icon), "Student did not open report" (points to the crossed-out eye icon), and "Status of document verification by the system. Document is checked or being checked." (points to the status column).

#### List of possible text manipulation attempts

In this section, you can find information regarding text modifications that may aim at temper with the analysis results. Invisible to the person evaluating the content of the document on a printout or in a file, they influence the phrases compared during text analysis (by causing intended misspellings) to conceal borrowings as well as to falsify values in the Similarity Report. It should be assessed whether the modifications are intentional or not.

Characters from another alphabet	β	35	^ v
Spreads	A→	0	^ v
Micro spaces		11	^ v
Hidden characters	Ⓝ	34	^ v
Paraphrases (SmartMarks)	a	5	^ v

#### Record of similarities

Please note that high coefficient values do not automatically mean plagiarism. The report must be analyzed by an authorized person.

Within academia, plagiarism by students, professors, or researchers is considered academic dishonesty or academic fraud, and offenders are subject to academic censure, up to and including expulsion. Some institutions use plagiarism detection software to uncover potential plagiarism and to deter students from plagiarizing. Some universities address the issue of academic integrity by providing students with thorough orientations, **toyota** required writing courses, and clearly articulated honor codes. Indeed, there is a virtually uniform understanding among college students that plagiarism is wrong. "Nevertheless, each year students are brought to their institutions' disciplinary boards on charges that they have misused sources and try to cheat in their schoolwork." [23]

However, the practice of plagiarizing by use of sufficient word substitutions to exclude detection software, known as rogeting, has rapidly evolved as students and unethical academics seek to stay ahead of detection software. [24]

Despite phenomenon of plagiarism is very sensitive in academic society, there is no much done to move forward with academic integrity in many countries. The reasons are various: lack of legislation and regulations, poor practices implemented etc. Within last few years the plagiarism scandals became loudly
